

Mr Brain Printable Puzzles

Teacher Resource #8

A small collection of printable puzzles designed for classroom use, early finishers, brain breaks, or quiet independent work. This resource includes a mix of visual, number, and logic puzzles with simple instructions and a range of difficulty.

What's Inside:

- 1. Find the Unique Fish** – Look carefully at all the fish and find the one that does not have a matching partner.
- 2. Missing Operations** - Fill in the missing math symbols to make each equation correct. Use only + and -
- 3. Binairo** – Fill the empty squares with + and -. No more than two identical ones may be next to each other, and every row and column must be different. Each row and column should contain the same number of + and - symbols.
- 4. Number Path** – Find the numbers in the correct order and follow the path from the first number to the last.

Suggested use: Individual work, early finisher activity, brain break, homework, or small-group practice.

Designed for elementary-age puzzle solvers. Teachers can choose activities based on their students' experience and ability.

Difficulty may vary between individual puzzles.

License & Use

This resource may be printed and used for personal and educational purposes, including classroom use.

You may make copies for your own students or household.
